COVID-19 Antibody (Serology) Validation Program

- There are currently no COVID-19 Antibody tests approved for use in a Physician Office/Clinic without a CLIA Certificate of Accreditation/Compliance.
- There are currently no CLIA waived POC COVID-19 (serology) tests approved by the FDA on the market, and only a handful have EUA approval.
- We can help quickly upgrade your CLIA Certificate from Waived to Moderate or High Complexity.
- We can assist you in completing a compliant validation for the antibody test which includes verified COVID-19 positive and negative antibody samples.

Lighthouse can partner with you in the following ways to validate for COVID-19 Antibody testing

SUPPORT

We can provide daily controls for continued use to ensure compliance and accurate results.

ACCURACY

We will coordinate testings with a correlation partner to ensure the accuracy of your testing.

PRICING

$9,250 for COVID-19 Antibody test validation and 6+months of validation materials & controls.

We can also assist with the clinical validation of ELISA or EIA (Immunoassay) COVID-19 Antibody (Serology) testing.
